*No additional monitoring requirements imposed.*

Date	Results
n/a	n/a

## IMPROVEMENT ACTIONS AND PLANS

1. Indicate the steps taken to address circumstances in which monitored parameters exceeded permitted levels and to avoid similar occurrences in the future.

No values exceeded levels established by the Drinking Water Protection Regulation or the terms and conditions of the Operating Permit. No steps to address exceeded levels were required in the 2012 operating season.

2. Indicate improvements or remedial actions that are required by the operating permit or Drinking Water Officer, and the required timelines for such improvements or remedial actions.

No improvements or remedial actions were required by the operating permit or Drinking Water Officer in the 2012 operating season.

3. Indicate any additional plans for improvements, including timelines.

New pump house constructed 2011.

Facilities within the pump house were raised to ground level in 2012, to eliminate a confined space work area.
