

Elk Lakes Provincial Park

Trail Conditions Report

Updated: **June 7, 2021**

Elk Lakes Provincial Park is located in the Southern Rocky Mountains of British Columbia. It protects the headwaters of the Elk River and presents astonishing scenic views of the Rocky Mountains. Elk Lakes offers a landscape that can be enjoyed by all members of the family that have some experience in the backcountry.

Elk Lakes is located in remote mountainous terrain and sudden weather changes can occur. **Be prepared for all types of weather and have proper backcountry supplies.**

Elk Valley Access Road Condition: The access road is a Forest Service Road (~67km), the road is in a variable condition and a vehicle with medium clearance will be required. Drive with extreme caution and for your safety, always yield to industrial traffic. A two way radio is strongly recommended.

Elk Lakes Core Area Trails

Trail Section	Approx. Distance (one way)	Elevation Gain	Trail Information	Trail Condition
Parking Lot to Lower Elk Lake	1 km	No elevation gain	Gentle grade through a mature forest.	Cleared June 5, 2021
Lower Elk Lake to Upper Elk Lake	1 km	30 m	Contours with the Elk River slowly gaining elevation.	Cleared June 5, 2021
View Point Trail	1.2 km	122 m	Follows along the lake, and then climbs steeply up to a spectacular view. Stay well back from the edge and use caution.	Cleared June 5, 2021
Upper Elk Lake to Petain Creek floodplain	3.5 km	30 m	Contours around Upper Elk Lake providing beautiful views of the lake and surrounding peaks. South/West of the lake you will encounter a flood plain; Travel through this area (1 km) will require route finding and may not be possible during periods of high water.	Cleared June 5, 2021 Trail along Upper Elk Lake flooded in multiple sections.
Petaín Creek floodplain to Petaín Falls	1.7 km	90 m	Gradually gains elevation through a mature forest. The view of the falls and surrounding area is very rewarding.	Cleared June 5, 2021 Snowy sections still exist.

Parking Lot to West Elk Pass	4 km	170 m	Well defined trail leads to West Elk pass and the Peter Lougheed Provincial Park boundary	Cleared June 5, 2021 Snowy sections still exist.
Upper Elk Lake to West Elk Pass (Fox Lake)	3.8 km	175 m	Climbs and crosses several avalanche chutes providing exceptional views of the Elk valley and Neville basin. Trail passes by Fox lake and levels off towards West Elk pass.	Cleared June 5, 2021 Snowy sections still exist.
West Elk Pass to Frozen Lake	2.5 km	270 m	Moderate hike, climbing steeply upon arriving at the cirque lake.	Snowy sections still exist.
