

Winter Recreation Map

Itcha Ilgachuz Provincial Park

Snowmobile Access Strategies

1. Snowmobiling is only permitted between December 15 and April 30.
2. Trails will be used as corridors to access snowmobile areas and all other areas are closed to snowmobiling.
3. The trail to the "Green Roof Cabin" will be closed after February 15 and will be used for emergency purposes only.
4. The Blackwater Trail is open all winter season.
5. Where the 66 km seismic line forks, the South (Meadow Route) will be the main access to the cabins near Itcha Lake. Only when snow conditions make travelling through the Meadow Route impassible will the North/Itcha Lake trail be used.

Warning:
The snowmobile routes and areas shown here contain hazardous avalanche terrain. Anyone entering these areas should have knowledge of avalanche safety and carry rescue equipment.
